Proposals.
FOR Publishing by Subscription, and for a ready for the press, a series of historical volumes, which when finished will assume the title of **Universal History Americanised**; Or, an historical view of Europe, Asia, Africa and America, from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America. BY DAVID HENRY, M. D. Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence. Sir William Jones.

PROSPECTUS.
THE Asiatic part of this work contains

a general view of the antiquities and of the general deluge—of the re-settlement of the Globe after that great event—of the primitive postdiluvian nations, which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AMERICA.
The African part, contains a concise history of Egypt, Carthage, Numidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.

EUROPE.
The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA.
The American part, contains a general history of the Western continent, under the heads of Free, European, and Aborigine, or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time. The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines. It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for \$3 1-3 per volume, in sheep binding, or \$4 1-3 Call Gilt, to be paid for on delivery.

AUTHORITIES.
This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the Globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1790, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.
The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANHOPE SMITH, which brings it down to the close of the last.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 numbers. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex: to them its success is a matter of deep importance.

SELECTIONS
FROM LONDON PAPERS RECEIVED AT N. YORK.

HOUSE OF COMMONS.
The following are some of the old Orders of the house of commons. They serve to give us a few features of our ancestors.

1614.—Ordered, That this house shall sit every day at 7 o'clock in the morning, and enter into the great business at eight o'clock, and no new motion be made after twelve.

Ordered, That whoever standeth in the entry of the house pay one shilling presently to the sergeant.

1641.—Ordered, That all the members who shall come to the house after eight o'clock, shall pay one shilling; and that if any member shall forbear to come for the whole day, he shall pay five shillings.

1642.—Ordered, That whosoever shall not be at prayer every morning, shall pay one shilling to the poor.

1647.—Ordered, That so soon as the clock strikes 12, Mr. Speaker do go out of the chair, and the house shall rise; and that in going forth, no member shall rise, until Mr. Speaker go before, and then all the rest shall follow. Whosoever shall go out of the house before Mr. Speaker, shall forfeit ten shillings, but that the reporters may go first.

Ordered, That while any stranger is in the house, no member do stir out of his place, or speak unto another; and if any member shall whisper or cross the house, or read any printed book in the house, he shall pay one shilling into the poor's box.

1692.—Ordered, That no member do accept of any entertainment at any public house, for the carrying on any matter under the consideration of the house;—and that the offer of any money or gratuity to any member for matters transacted in the house, shall be deemed a high crime and misdemeanor.

Ordered, That no member ought to give or receive any visit to any foreign agent or ambassador, without the leave or consent of the house.

1693.—Ordered, That no member of the house do presume to smoke tobacco in the gallery, or at the table of the house, sitting at committee.

Ordered, That no Papist do presume to come into Westminster-Hall, the court of requests, or lobby of the house during the sitting of Parliament; and that the sergeant at arms do take into custody all such persons as shall offend against this order.

PEDESTRIAN PERFORMANCE.

The 600 miles in ten days was completed on Wednesday night at 11 o'clock, by Mr. Howard, at Karesford, who walked over a two mile piece of ground. This match is beyond the compass of the powers of any horse, and nothing like it has ever before been recorded of man. The pedestrian had finished 390 miles the first 6 days. 50 more than his ground. On Sunday, he began to flag, with swollen legs, but he did 56 miles. He was 18 hours in doing 37 miles, on Monday; bathing had, in some measure, relieved. On Tuesday, he was 19 hours performing 52 miles; and he was not expected to be able to go, on the last day, from excessive fatigue. He had 45 miles to win the match: he started at two in the morning, and proceeded at first under three miles an hour. At four p. m. he went to bed, having done 31 miles. He had then 14 miles to do in eight hours. He rose again at 7, and won the match soon after 11, distressed in a manner not easily described. It was for 200 g. cas.

By the treaty lately concluded by Gr. Britain and Spain, the former pays the sum of 400,000 pounds sterling as full compensation for any losses that may arise from the intended abolition of the slave trade.

On this subject the Globe observes,—"By this act the English government has virtually taken part with Ferdinand against the Patriots of South America, and by this purchase granted him a subsidy of 400,000 pounds to enable him to reduce them in a short time to subjection."

ALEXANDRIA: MONDAY, APRIL 20, 1818.

FROM OUR CORRESPONDENT AT WASHINGTON.

Saturday, April 18, 1818.

The house of representatives sat to a late hour last night. Of its proceedings you shall have an account by to-morrow's mail, along with a report of what may occur this day.

We learn, on the authority of letters from Charleston, S. C. that com. Anny's squadron, consisting of six vessels, having on board 300 troops, commanded by colonel Irwin, sailed from thence on the 8th instant for St. Bartholomews.

[Washington Gazette.]

GEORGE WASHINGTON CAMPBELL, a senator in congress from Tennessee, has been appointed by the president, with the approbation of the senate, to be envoy extraordinary and minister plenipotentiary to the court of Russia, in the room of Mr. Pinkney, who is about to return to the United States.

General JAMES WILKINSON has been appointed by the governor of Louisiana quarantine master for the port of New-Orleans.

[N. Y. Intelligencer.]

We understand, from satisfactory authority, that the president of the United States will visit Norfolk on or about the 10th of May. We also learn that the commissioners appointed to survey the entrance to the Chesapeake, Hampton Roads, &c. will be here about the 1st of May, to resume their operations, which were suspended last winter in consequence of the inclemency of the season.

[Norfolk Herald.]

Extract of a letter from a merchant of respectability in Liverpool, to his correspondent in Boston, dated Feb. 6.

The principal object of this letter is to guard you against any transactions in East India cotton. Its importation into this country depends on an act of parliament 32 years old, the 6 Geo. 3 chap. 52, sec. 20, which has been suspended for 25 years, by a general act that expired six months after the war; and the old act is probably only left in force by its having escaped the attention of government. It is obviously as contrary to British policy to permit your citizens to be carriers of British colonial produce for the supply of our manufactures as it would be to permit them to supply our population with Jamaica rum and sugar in the same way, or as it would be for your government to permit our vessels to carry on the trade from New-Orleans to Boston. I therefore consider it my duty, as deputy chairman of the East India association of this port, to bring the subject before the last monthly meeting of the committee, and a memorial is now preparing to government, praying the repeal of the section of the act above mentioned. I have no doubt it will be repealed, and that many of the shipments of East India cotton making at your port will therefore have to go to France.

It is gratifying to find, by the exposition of the treasury documents during the late debate in congress on the navigation bill, that it is by no means probable the price of any of the West India products consumed in the United States, except rum, will be sensibly affected by the total exclusion of trade from the British islands, which is contemplated by the bill. Sugar and coffee are the most material articles to us, and of these it appears a much less quantity is imported from the British islands than is re-exported from the United States. Of the article of coffee, 40 millions of pounds are imported; two millions only of this quantity from the British colonies, and 24 millions are exported; from which it is clear that a total exclusion of coffee from the British islands can only diminish the amount of exportation two millions of pounds. Of sugar, we import 120 millions of pounds—12 millions of this from British islands, and we export 66 millions. The exclusion, therefore, will not affect the quantity for consumption. It is possible, however, that in the various ramifications of commercial operations, some small effect may be produced in the price of these articles, but we are justified in saying that it cannot be sensibly felt. Of the article of rum, we import seven and a half millions of gallons; four millions of this quantity from British islands, and only 600,000

gallons are exported. The exclusion will, therefore, reduce the quantity for consumption 4,000,000 gallons. Those who should feel dissatisfied at the loss of this ingredient in their comforts, may be consoled with the consideration that the distillation of 1,139,333 bushels of the grain which now goes to the West Indies, or elsewhere for a market, would supply the same quantity of (if well made) a more wholesome liquor.

[Franklin Gazette.]

From the Bal. Federal Gaz. April 16.

The editor has been favored by a friend with a file of the Barbados Mercury to March the 7th, from which such articles are extracted as appeared to be interesting.

From the Barbados Mercury, March 7.

We understand the Engineer Treasury vessel (which sailed hence on Tuesday for Antigua and other islands to leeward) was very recently fired at in the neighborhood of Trinidad by a brig that no doubt belonged to one or other of the squadrons that are engaged in hostility for the contending parties on the Spanish Main. Vessels of this description have of late been often met with off the Bocas; and as it is known that some of those professing to be on the Republican side are not very respectful in their treatment: captain Seymour, who had in charge a quantity of specie, very prudently proceeded for his destination, without ascertaining by whom this insult to the British flag had been committed; but he soon afterwards fell in with the Brazen sloop of war, and, having acquainted captain Stirling, that ship immediately sailed in quest of the offender.

Palmouth (Jam.) March 4.

The schr. Curacao Packet, Armutz, from the Indian coast, bound to Aruba, but blown off the coast, out 7 days, put into Kingston on the 27th ult. in distress. The arrival of this vessel puts it out of all manner of doubt as to the loss of the brigantine Saxe Coburg, Glaister, two of the crew having arrived in her. These men, whose names are James Berry and John Peters, state that the Saxe Coburg was taking in cattle on the Indian coast in the beginning of January; that on the 9th she had on board 134 head; that between the hours of 10 and 11 in the forenoon of that day, one of the Indian chiefs was on board, who got drunk, and behaved in so very outrageous a manner that captain Glaister was compelled to confine him till he became sober, but, from the quantity he drank, he died shortly after he was sent on shore. His followers, imagining the chief's death was caused by ill treatment from captain G. went on board the vessel in vast numbers, and commenced butchering every soul they could lay hands on; and out of her whole crew only the two men who arrived here in the Curacao Packet escaped—they having secreted themselves effectually until the savages' rage was somewhat abated. They were taken on shore as servants to the Indians, and were sold to captain Armutz like beasts. The Indians plundered the Saxe Coburg of every portable article, and afterwards set fire to her. Mr. Jacob Glaister, brother of captain G. and Mr. Webb, a passenger, were among the unfortunate victims.

Some particulars respecting the loss of the brig Sursum, of Salem, Andrew Harraden, master, and the preservation of the crew, after being 19 days in an open boat, on the ocean—as reported by the master. Received per the ship Charles, from London. "Nov. 29, 1817.—At 8 a. m. weighed anchor in Salem harbor, and proceeded to sea with a light breeze from the s. w. and pleasant weather, bound to Martinique, with a cargo of fish, soap, candles, sail-cloth, ravens duck, cordage, Russia sheeting, and Calcutta bale goods—owned by Joseph Peabody and Gideon Tucker, Esqrs.—and manned with nine men.

"On the 8th Dec. at 4 p. m. blowing fresh, we were in lat. 37. 40, and lon. by account, 52. 10, being to the eastward of our intended port. Not wishing to carry a press of sail, we handed our top-sails at midnight; handed the fore-sail and balance reefed the try-sail. Squally with rain. Lay by under balanced try-sail and main and fore-top-mast staysails. The latter part of the night the wind moderated and the weather cleared up; the wind still from the south.

Dec. 9th, at 6 a. m. set reefed fore-sail and close reefed main-top-sail—could we have steered our course, we should have set all sail. At 8 a. m. all hands went below to breakfast, except the man at the helm and the cook. We had scarcely got seated at the table, when we found the vessel setting over upon her side—We instantly repaired to the deck, but she was keel out, and her masts and sails under water. We all recovered the weather side of the vessel except John Ransom, who was drowned in the fore-cabin, although several attempts were made to

save him. Immediately we cut our star-board janiards, and the fore-mast went just above the deck, and the main-mast just above the eyes of the rigging when she righted, full of water. We then cut away the girdes and lashings of our boats, and after much difficulty succeeded in getting them freed from water. Finding the wreck did not sink, we threw the cables which were lashed on the quarter-deck overboard, to lighten her aft, and with a boat-hook grappled up through the sky-light and companion, some provisions and a few articles of clothing; and also saved part of a cask of water. With a coil of rope which we got, we were enabled to moor our boats to the wreck, where we remained during the night, which was dark and squally.

On the 10th we again boarded the wreck, and grappled up some few articles of light clothing, two pieces of beef, a cheese, and a bag containing some money. At 4 p. m. the wind changed to the northward, and blowing a strong gale we found it very difficult to keep our boats to the leeward of the wreck, so that we were in danger of foundering. After consultation, we thought it advisable for the safety of our lives, to cut the boats adrift, keeping the small boat ahead of the long boat, and endeavored to keep them head to wind and sea. Five were in the long boat and three in the other. We shipped many seas which half filled the long boat, but providentially we were enabled to bail her out before another came, or we must inevitably have sunk. After drifting about two hours, a heavy sea struck the small boat and upset her; but we succeeded in saving the three men that were in her, although one of them could not swim. This apparently adverse circumstance proved by the blessing of God, to be the means of our preservation that night; from the circumstance of the small boat's being a drag to the long boat, enabled us to keep her head to the sea and break it off from her, which must have swallowed her up. The latter part of the night the wind and sea abated. At sunrise we thought we saw a sail; but after an hour or two, the weather becoming more clear, we discovered it to be the wreck of our own vessel, about 5 miles distant from us.

The weather being moderate, by means of some small nails and the few tools saved, we put waist-cloths round our boats, about eight inches above the gunnel, to keep off the sea. We also providentially succeeded in catching a dolphin. In the afternoon we concluded as a measure of safety to return to the wreck; accordingly cut away the small boat, manned our oars, and reached her by 6 o'clock. We made our boat fast to the wreck, and had a tolerable moderate night. On the 12th we remained by the wreck and procured some other articles from it. The wind sprang up at a. w. and a heavy sea going, we were in danger of swamping our boat, even to leeward of the wreck. At sunset saw a brig to leeward, standing to the s. s. z. but it blew so hard and the sea so high, we durst not go in pursuit of her. At midnight came on hard squalls from the s. w. attended by rain, thunder and lightning. The wind continuing to blow heavy, we were unable to board the wreck again till the 14th, when we boarded her several times, and went to the main-mast head to look out for a sail, but could discern nothing. We succeeded in getting a top-mast studding-sail boom, which we lashed to the mast head, on which we hoisted part of a sail, as a signal. We daily saw the wreck was settling, and on the 17th she went down, head first; when all hopes of safety seemed to vanish. We put out a rope with a bucket attached to it, to serve as a drag, by which, with the help of our oars and God's goodness, we survived the night. The next morning, with a top-gallant studding-sail boom, an oar, and a coil of new rope, lashed together, and the bucket, we made a drag which helped to break off the sea, and keep her head to sea and wind. With this drag we lay until Sunday, 28th Dec. when, at daylight, the weather being clear and moderate, to our great joy we descried a sail in the s. w. standing to the eastward, about six miles distant. We hauled in our drag, manned the oars, and made all the exertion in our power to get to her—fortunately the wind was baffling and light. When within a mile of her she hoisted her colors. It is impossible to describe our joy and feelings on this occasion, as we knew by the signal they had seen us. About ten o'clock we got along side, and found it to be the brig Cambrian, of Liverpool, 23 days from Barbis bound to London, commanded by Watson Skuff, Esq. We were hospitably and kindly received on board by Capt. S. and every assistance and comfort rendered to us. The exertions we had made this morning, and our anxious fears and hopes lest we should not succeed in getting to the brig, had exhausted the little strength we had left, that not a man was able to stand after he got on board the Cambrian; myself and most of the others were obliged to be lifted on board by a rope. The mate seemed to be the strongest of any, and had exerted himself the most while in the boat, yet he was so far exhausted as to be unable to stand for several hours. Our hands and feet were very much swollen, from constant wet and cold.

To describe our sufferings in every respect is more than I can do; suffice it to say, that they were perhaps as great as ever endured by mortals; and in fact as great as human nature could en-

dure. Our sustenance for 19 days had been as follows: each had 3 gills of brackish water per day; in the morning one ounce of salt beef or pork, an ounce of cheese, and a small handful of peas at night an ounce of beef or pork, an ounce of dolphin, and one small potato, or half of a large one. The potatoes we found very nourishing food, and assuaged our thirst, which we occasionally kept and chewed for that purpose. We had not one mouthful of bread of any kind.

The names of the persons saved in the long boat, are Andrew Harraden, master; Samuel Tarr, mate; John Merriam, James Swan, Stephen Blagertine, Antonio Martin, James Tarr, seamen; Simon Peters, (black) cook—John Ransom, black seaman, was drowned."

Dr. WILDINS' Celebrated Antibilious Pills.

THE subscribers inform the Public, that they have purchased of Doctor Wildins his Receipt and the sole right to make and prepare his Pills, known by the name of Wildins' Antibilious Pills. These Pills have been sold in this city and the neighboring country for the last twelve years, and during that time have acquired a character (for safe and effectual operation) over all medicines of that class ever offered to the public. Their composition is known to and approved of by several of the most eminent physicians of this place. The subscribers, with a view to extend their sale in the country, and to render them an object to country druggists and others, have reduced their wholesale price very considerably; and to accommodate individuals, will furnish them for the future in whole boxes at 50 cents, and half boxes at 25 cents each. To prevent imposition from counterfeiters, each direction will be signed by Dr. Henry Wildins, the original; and D. & C. Keener, the present proprietors.

Notice.

IN the years 1784—5, and part of 1786, a certain Samuel Galt kept a store in Port Tobacco—in '86 he gave up his books and goods to trustees in Baltimore for the benefit of his creditors. The said trustees sold the goods and divided the proceeds among his creditors there; they paying, as I have been told, ten shillings in the pound. Some years after the trustees sent his books to me, with authority to collect what was due thereon, and pay it over to his creditors who resided in this county, and also to sell a small lot of land he held. I have long since collected all I could on the books, and sold the land in 1796, but never received the money for it until a few days ago; and I am now ready to pay over what there is to his creditors who resided at that time in Charles county, and have fixed on Monday, the 17th of August next, to make the final distribution—it will not amount to ten shillings in the pound with interest. I therefore wish all claimants to send in their claims duly authenticated against that day.
I find on the books a balance due a Rev. Mr. Stewart, (his first name does not appear) who was then of this place, and have understood emigrated to the southwards also a certain Nicholas and Valentine Pears, who were then merchants in Port Tobacco. I know not where either of them are, but wish them or their representatives to send in their claims without delay.

20 Dollars Reward:

RAN AWAY from the subscriber at Centerville, Fairfax county, Va. on the 2d day of April 1818, a Negro Girl, named JENNY, yellow complexion, about 18 years of age, rather low, thick lips, slow spoken, and talks as if she had a cold. She is a good seamstress and house servant. She formerly belonged to Philip Countee, and was sold to William D. Merrick of Charles county, Md. (She is well acquainted both in Washington and Georgetown, D. C. having lived with Mr. Isaac Wilson; in Georgetown, and with several others in both places, and I think she is in that vicinity. I will give the above reward to any person who may apprehend said girl and secure her in goal, so that I get her again.

Confectionary.

ANTHONY KALE respectfully informs the ladies and gentlemen of Alexandria, that he has opened a Confectionary Shop, on King-street, one door below Mr. Bloxham's, where he constantly keeps on hand all kinds of cake, cordials, candies, fruit, nuts, &c.
Country merchants can be supplied with the above articles by wholesale on the most reasonable terms, and parties with all kinds of cake at one day's notice.
ALSO,
These celebrated bitters are composed purely of vegetables of the most innocent, yet specific virtues, and are infinitely superior to any thing yet discovered, for restoring weak and decayed constitutions, destroying worms, cleansing and strengthening the stomach, increasing the appetite, and by the frequent use of them, they are a certain preventive against those complaints so common in the spring and fall seasons, such as intermittent fevers, and agues, long Autumnal fevers, dysenteries, &c. They are also of infinite service to those in the seafaring line, who make long voyages at sea, and are exposed to unhealthy climates; a preventive against contagious disorders—they are also a very pleasant bitter and are particularly recommended for the use of Taverns and Public Houses, as well as private families.

350 Acres of Land for sale.

The subscriber wishes to sell 350 acres of LAND in the upper part of Prince William county, Virginia, immediately on the road leading from Haymarket to Leesburg, and about 3 miles from Aldie mills, from which latter place there is a turnpike road to Alexandria, distant 35 miles. One half of this farm is covered with a heavy growth of timber, such as white oak, black oak, hickory, locust, &c. The buildings are all new and in good order. As there is a saw mill erecting on an adjoining farm the timber may be converted into plank with convenience. This land is well watered, and none more susceptible of improvement or better adapted to the use of clover and plasters. Persons desirous of purchasing would do well to call and see it, as a great bargain may be had. For terms apply to the subscriber living on the premises.

N. B. If this land is not sold before the first day of October next, it will then be offered at public sale.

600 acres of Land for sale.

THIS tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar, pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equidistant from Baltimore, Washington and Norfolk.

Any one wishing to purchase may apply to
ROGER JONES,
Alexandria.

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wilkes, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition. For terms, apply to PHILIP C. JONES, Esq. in Leesburg, Va. or to
R. JONES.
March 30

Land for Sale.

THE subscriber wishes to dispose of the whole or a part of a tract of LAND, containing between 6 and 700 acres, lying within 5 miles of Alexandria and 4 and a half from the Washington bridge, and divided into four parts by the Leesburg road and the turnpike from the Washington bridge to the Little River turnpike. No. 1 contains about 60 acres, has a fine orchard and some young wood, and is partly enclosed. No. 2, containing about 80, and No. 3 about 150 acres, lay nearest to Alexandria, and are entirely covered with a young growth of hickory and oaks with some wood—these three parts lay admirably for cultivation, and the latter has on it one of the finest springs in the county. No. 4 has on it a two story frame house with two large rooms on a floor, kitchen, laundry and smoke house, together with several tenements, one of which, situated at the junction of the two roads, is an excellent wagon stand, well known by the name of Bon's Tavern. There are on it also, several orchards, some fine springs, and a never failing stream sufficient for water works: part of it is in cultivation and tolerably well enclosed, with a sufficiency of wood. The three first parts may be had separately, or the whole together at a very moderate price, on the following terms, viz. One-fourth cash—one fourth on the first September next, and the balance in two equal annual payments thereafter, with interest. Possession will be given the purchaser immediately. The title is good and free from encumbrance. The premises will be shown by J. B. McFarling, living therein, and any application directed to me in Washington City, will be attended to.
WM. B. RANDOLPH.

French Creek Boarding School.

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL for GIRLS. With this view I have purchased the FARMER CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pike-land and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniences for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter. The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

Fan-Sash Making.

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as in town.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills.

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in

one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samuel Lee, patentee, &c. J. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them, the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water. For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment. A certain and safe cure for that disagreeable complaint, as well as other eruptions of the skin. Price 37½ cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters. For weakly and infirm constitutions. Price 37½ cents a box.

Huckleby's Infallible Remedy for the Piles. A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste. For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache. Which, in almost every case, gives instant relief in that distressing complaint. Price 37½ cents a bottle.

Cooler's Vegetable Elixir, for Coughs, Asthma, Consumptions, &c. A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. Rich'd. H. Little, in Washington City, by Dr. David Ott; in Georgetown, by Dr. John Ott, Ohio, Mr. Linthum & Co. and Nathaniel Jewett.

James Kennedy & Son, RESPECTFULLY inform the public that they have just received from
LEE'S MEDICINE STORE.

No. 45, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes of every age, and in every situation, of various & dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terebrator or large round worm; the Ascarides or small saw-worm; the Oecuriaria or short flat white worms; and lastly, the Tenuia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fecid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

Hahn's ANTI-BILIOUS PILLS. THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than can be borne of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold taken on its first appearance: they are celebrated for removing habitual constiveness—sickness of the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir, A sovereign remedy for colds, obstinate coughs, asthma, sore throats, catarrhs, and approaching consumptions. To parents who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative, Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	Indigestion
Loss of spirits	Impurity of blood
Loss of appetite	Melancholy
Hysterical affection	Gout in the stomach
Inward weaknesses	Pains in the limbs and debility
	Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedily removing their root and branch, without giving any pain.

The Genuine Persian Lotion, So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water, A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness, or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops For the cure of agues, remittent and intermittent fevers.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
